Education

Zagazig University

Bachelor of Computers and Information

Oct. 2021 – Jul. 2025

Zagazig, Egypt

Summary

Flutter developer with strong experience building scalable mobile applications for **Android and iOS** using clean architecture (MVVM), state management (BLoC/Cubit), and REST APIs. Delivered multiple production-ready apps including AI-powered solutions, e-commerce, and real-time location-based systems.

Experience

Freelance Flutter Developer

at Zain Car Company – Ride-Hailing Application

Aug. 2024 – Jul. 2025

Remote

- Worked as a freelance Flutter developer on a company ride-hailing application (inDriver-like) over a 10+ month period.
- Contributed to core features including maps integration, dynamic pricing logic, and payment workflows.
- Collaborated remotely with the company team to develop and maintain both passenger and driver applications.
- **Passenger App Demo:** 📄
- **Driver App Demo:** 📄

Flutter Developer Intern

OnClick Company

2025-2026

OnSite

- Worked on **Tayser App**, a Flutter-based application focused on installment and financial services solutions.
- Implemented responsive UI screens, API integration, and state management using Cubit/BLoC.
- Collaborated with the development team using Git and followed clean architecture practices.
- **Source Code:** 📄 github.com/tayser_app

Freelance Flutter Developer

Learnify University Management System

2025-2026

Remote

- Developed and maintained **Learnify App**, a university management and attendance system as a freelance project.
- Integrated REST APIs for attendance tracking, courses, authentication, and student management features.
- Built scalable Flutter architecture using MVVM and Cubit for efficient state management.
- Implemented clean UI/UX and optimized app performance for Android devices.
- **Source Code:** 📄 github.com/learnify_app

Projects

Skin Scan – AI-Powered Wound and Skin Disease Detection App | Flutter

Jul. 2025

- * Developed an AI-powered Flutter app for wound and skin disease detection using image analysis.
- * Integrated camera functionality and external AI models via REST APIs for instant diagnosis and guidance.
- * Collaborated with designers and backend developers to deliver a clean, user-friendly experience.
- * **Source Code:** 📄 Demo

Market E-commerce App | Flutter, Dart

2024-2025

- * Built a Flutter e-commerce app with authentication, product listing, cart management, and REST API integration.
- * Implemented real-time data updates and followed clean, maintainable code practices.
- * **Source Code:** 📄 github.com/Market-E-commers

Bookly App | Flutter, Dart

2024

- * Developed a Flutter book browsing app using MVVM architecture and Cubit state management.
- * Integrated Google Books API using Dio with proper error handling and clean architecture principles.
- * **Source Code:** 📄 github.com/BOOKLY-APP

Delivery App | *Flutter, Google Maps, Stripe*

- * Built a delivery app with real-time location tracking and distance-based pricing.
- * Integrated Stripe/PayPal payments and managed app state using Cubit.
- * **Source Code:**  github.com/delivery_app

2025

Upper-UI | *Flutter, Dart*

- * Collaborated with a team to design a modern Flutter UI for financial market tracking applications.
- * Implemented authentication screens, dashboards with charts, portfolio overview, and watchlist features.
- * Built responsive layouts with Light and Dark theme support following UI/UX best practices.
- * Wrote clean, maintainable, and reusable Flutter code following best practices.
- * **Source Code:**  github.com/Upper-UI

2025

Technical Skills

* Dart	* MVVM Architecture	* UI/UX Design
* OOP	* State Management (BLoC, Cubit, Provider, Riverpod)	* Git & GitHub
* Data Structures	* Firebase , Supabase	* Postman
* Flutter	* REST APIs	* Figma

Soft Skills

– Decision Making	– Responsibility	– Problem Solving	– Self-Motivation
– Communication Skills	– Adaptability	– Attention to Detail	– Time Management
– Team Collaboration	– Planning	– Leadership	

Volunteering & Activities

GDSC, GDG, ZigZag
Flutter and Software Developer

2022 – 2026

TEDx Zagazig, YLY, Y-pear
Volunteer Member

2022 – 2023

Led and contributed to technical teams and founded a volunteer initiative to teach programming basics.
