Education

Zagazig University

Oct. 2021 – Jul. 2025

Bachelor of Computer Science and Information

Zaghizig, Egypt

Summary

Flutter developer with strong experience building scalable mobile applications for **Android and iOS** using clean architecture (MVVM), state management (BLoC/Cubit), and REST APIs. Delivered multiple production-ready apps including AI-powered solutions, e-commerce, and real-time location-based systems.

Experience

Freelance Flutter Developer

Aug. 2024 – Jul. 2025

at Zain Car Company – Ride-Hailing Application

Remote

- Worked as a freelance Flutter developer on a company ride-hailing application (inDriver-like) over a 10+ month period.
- Contributed to core features including maps integration, dynamic pricing logic, and payment workflows.
- Collaborated remotely with the company team to develop and maintain both passenger and driver applications.
- **Passenger App Demo:** [🔗](#)
- **Driver App Demo:** [🔗](#)

Projects

Skin Scan – AI-Powered Wound and Skin Disease Detection App | Flutter

Jul. 2025

- * Developed an AI-powered Flutter app for wound and skin disease detection using image analysis.
- * Integrated camera functionality and external AI models via REST APIs for instant diagnosis and guidance.
- * Collaborated with designers and backend developers to deliver a clean, user-friendly experience.
- * **Source Code:** [🔗 github](#) [🔗 Demo](#)

Market E-commerce App | Flutter, Dart

2024-2025

- * Built a Flutter e-commerce app with authentication, product listing, cart management, and REST API integration.
- * Implemented real-time data updates and followed clean, maintainable code practices.
- * **Source Code:** [🔗 github.com/Market-E-commers](#)

Bookly App | Flutter, Dart

2024

- * Developed a Flutter book browsing app using MVVM architecture and Cubit state management.
- * Integrated Google Books API using Dio with proper error handling and clean architecture principles.
- * **Source Code:** [🔗 github.com/BOOKLY-APP](#)

Delivery App | Flutter, Google Maps, Stripe

2025

- * Built a delivery app with real-time location tracking and distance-based pricing.
- * Integrated Stripe/PayPal payments and managed app state using Cubit.
- * **Source Code:** [🔗 github.com/delivery-app](#)

Upper-UI | Flutter, Dart

2025

- * Collaborated with a team to design a modern Flutter UI for financial market tracking applications.
- * Implemented authentication screens, dashboards with charts, portfolio overview, and watchlist features.
- * Built responsive layouts with Light and Dark theme support following UI/UX best practices.
- * Wrote clean, maintainable, and reusable Flutter code following best practices.
- * **Source Code:** [🔗 github.com/Upper-UI](#)

Technical Skills

- * Dart
- * OOP
- * Data Structures
- * Flutter
- * MVVM Architecture
- * State Management (BLoC, Cubit, Provider, Riverpod)
- * Firebase , Supabase
- * REST APIs
- * UI/UX Design
- * Git & GitHub
- * Postman
- * Figma

Soft Skills

- Decision Making
- Communication Skills
- Team Collaboration
- Responsibility
- Adaptability
- Planning
- Problem Solving
- Attention to Detail
- Leadership
- Self-Motivation
- Time Management

Volunteering & Activities

GDSC, GDG, ZigZag

Flutter and Software Developer

2022 – 2026

TEDx Zagazig, YLY, Y-pear

Volunteer Member

2022 – 2023

Led and contributed to technical teams and founded a volunteer initiative to teach programming basics.
