Education

Zagazig University

Bachelor of Computer Science and Information

Oct. 2021 – Jul. 2025

Zagazig, Egypt

Summary

Flutter developer with strong experience building scalable mobile applications using clean architecture (MVVM), state management (BLoC/Cubit), and REST APIs. Delivered multiple production-ready apps including AI-powered solutions, e-commerce, and real-time location-based systems.

Projects

Skin Scan – AI-Powered Wound and Skin Disease Detection App | Flutter

Jul. 2025

- Developed an AI-powered Flutter app for diagnosing wounds, burns, and skin infections using image analysis.
- Integrated in-app camera with an external AI model via REST APIs to provide instant diagnosis and first-aid guidance.
- Designed a clean, user-friendly UI and tested APIs using Postman to ensure accuracy and reliability.

Market E-commerce App | *Flutter, Dart*

2024-2025

- Built a Flutter e-commerce app with authentication, product listing, cart management, and REST API integration.
- Implemented product listing, user authentication, cart functionality, and real-time data updates.
- **Source Code:** 🐙 github.com/Market-E-commers

Bookly App | *Flutter, Dart*

2024

- Built a responsive book browsing app using Flutter with clean UI.
- Applied MVVM architecture with Repository pattern for scalable code.
- Managed state using Cubit (BLoC) and dependency injection with `get_it`.
- Integrated Google Books API using Dio with proper error handling.
- Used Equatable and Dartz to enhance state comparison and code quality.
- **Source Code:** 🐙 github.com/BOOKLY-APP

Delivery App | *Flutter, Google Maps, Stripe*

2025

- Built a delivery app with real-time location tracking and distance-based pricing.
- Integrated Stripe/PayPal payments and managed app state using Cubit.
- **Source Code:** 🐙 github.com/delivery_app

Freelance Experience

Freelance Flutter Developer

2025

Ride-Hailing App (inDriver-like)

Remote

- * Contributed to developing core features of a ride-hailing Flutter app including maps integration, dynamic pricing logic, and payment workflows.
- * **Demo (Passenger App):** Google Drive Link
- * **Demo (Driver App):** Google Drive Link

Technical Skills

- | | | |
|-------------------|--|----------------|
| * Dart | * MVVM Architecture | * UI/UX Design |
| * OOP | * State Management (BLoC, Cubit, Provider, Riverpod) | * Git & GitHub |
| * Data Structures | * Firebase , Supabase | * Postman |
| * Flutter | * REST APIs | * Figma |

Soft Skills

- Decision Making
- Communication Skills
- Team Collaboration
- Responsibility
- Adaptability
- Planning
- Problem Solving
- Attention to Detail
- Leadership
- Self-Motivation
- Time Management

Volunteering & Activities

Passionate about volunteer work and teamwork. Participated in multiple teams, gaining valuable experience and achievements.

GDSC (Google Developer Student Club)

Software Developer

2022 – 2024

- * Core Team Member - Software Developer 2022 – 2023
- * Team Leader - C++ Developer 2023 – 2024

EGI Team (Experience, Grow, and Impact)

University Team

- * Cybersecurity - Penetration Testing - 2021 – 2023
- * Project Management Member 2021 – 2023

TEDx Zagazig Team

Speakers and Coaching Team Member

2023

Y-pear Sharqia

Volunteer Member

2023

YLY Sharqia

Public Relations (PR) Member

2022 – 2023

GDG

Core Team Member - Flutter Developer

2025 – 2026

ZigZag

Member - Flutter Developer

2025 – 2026

Founded a volunteer team to teach C++ programming basics to beginners.
